

Terms and Conditions Unique Service Address Identifiers

The Terms and Conditions filing has created the need to identify premises uniquely when there are two or more service delivery points with the same address.

To meet the requirement noted in T&C section 4.3.6, it is necessary to assign unique identifiers to premises (example, ESID 123 at 100 Main St. and ESID 456 at 100 Main St GRDL). This will be done using market approved UNIT codes in the Service Address field

Unit Code	Unit Code Description
ANNX	Annex
APT	Apartment
BARN	Barn
BSMT	Basement
BTH	Booth
BLDG	Building
CATV	Cable TV
CELL	Cell Tower
CLUB	Club House
