Yes _____ No _____

How could we have improved this effort?

3. Was the information presented helpful for your understanding of the project?
Yes _____ No _____

How could we have improved this effort?

4. The Public Utility Commission of Texas (PUCT) and Texas Utilities Code requires that several factors be considered when routing an electric transmission line, including:

- Proximity to single-family and multi-family dwellings and related structures, mobile homes, apartment buildings, commercial structures, industrial

structures, business structures, churches, hospitals, nursing homes, and schools;

- Proximity to commercial radio transmitters, microwave relay stations, or other electronic installations;
- Proximity to parks and recreational areas;
- Proximity to FAA-registered airports, private airstrips, and heliports;
- Proximity to historical or archeological sites;
- Agricultural areas irrigated by traveling irrigation systems;
- Environmentally sensitive areas; and
- Protected or endangered species.
